

Cambridge Latin Course Unit 1

5th Edition

What's changed?

Global changes

The following changes affect the entire course:

1. Page size

The increase in page size has led to the repositioning of a significant amount of material. For example:

- more model sentences now fit on a single page;
- the position of line wraps in the Latin stories have changed;
- vocabulary is now positioned to the right of the Latin stories, rather than below it;
- the position of images may have changed.

2. Coloring of line drawings

The line drawings have been colored throughout. Information is available on this topic in the separate 'Coloring the *Cambridge Latin Course*' document.

3. Numbering and lettering of paragraphs

Paragraphs or exercises are now numbered (rather than lettered) and individual sentences are lettered (rather than numbered).

4. Word Study

The Word Study sections have been moved to the digital resources in order to integrate the activities with the reading passages and to provide a greater range of resources across multiple languages.

5. The female perspective

More focus has been given to the lives of women in this edition. This includes more in the Civilization essays in each Stage and the more active roles of women in the stories

6. Lucia

To aid this increased female presence a new female character, Lucia the daughter of Caecilius, has been added into the family.

Note

No macrons are used in this document.

Line numbers, exercise numbers, and section numbers refer to the fifth edition.
